## Model File Building Service

### Model Building

Have you ever been stumped trying to create just the right model to get data out of a report?

Have you ever had a report so complex, you didn't know where to start in building a model?

Or have you ever wished you had someone to rely on when you didn't have time to build new models?

You're not alone. Over the years we've helped a lot of people build models in our training and consulting classes. And now we want to make this valuable service available to all of our Monarch users anytime they need it.

### Why you should use the Monarch Model Building Service?

- Get custom models built quickly
- Meet your simplest or most complex reporting needs
- Benefit from our years of Monarch model building
- Enjoy the title of "Monarch Expert" without lifting a finger
- Learn from the models we build for you

### How our service works

Send us your report(s) and your extraction requirements for a quotation. If you are happy with our price, our Monarch experts will create a model file to meet your needs. It's that simple! You'll work one on one with a trained technical specialist until the work is completed to your satisfaction. Once the model is created, it's yours to keep and use with subsequent reports.

**Call +44 (0) 1752 893100 ext. 249 and ask for  
Monarch Model File Building Service.**
