

NEWS RELEASE 17 August 2006

## **Datawatch Europe doubles Monarch training places in South Africa to meet demand**

### **Three courses and a seminar in October 2006**

Datawatch Europe has sold all places at three Monarch training courses to be held in Johannesburg, South Africa in October after increasing their number to three to deal with the demand. It has also added a product release seminar on 27 October to the Johannesburg schedule and promises an additional course in Cape Town if sufficient requests are received.

Datawatch Europe, working with its South African partner, MCBA Computers (Pty) Ltd - Sibol International, has filled all places at three Monarch training courses in Johannesburg, South Africa. Demand for places was unexpectedly high. The courses cater separately for novices, intermediate and advanced users. Course one, on 23 and 24 October 2006, is designed for very advanced Monarch users, Course two, on 25 and 26 October, for beginners and inexperienced users and Course three, on 30 and 31 October, for advanced Monarch users.

An additional free-of-charge product-release seminar will also be held in Johannesburg on 27 October. Places at this event must be requested soon!

Applications for additional course dates in Cape Town (or in Johannesburg) should also be made as quickly as possible either to Michael Coucoubros, MCBA Computers, Call +27 (0) 11 463-0900 (ext 7)/+27 (0) 83-407-3457(Cell), email [michael@esibol.com](mailto:michael@esibol.com) or to Datawatch Europe +44 1752 893100/241460, Fax: +44 1752 241560, Email: [rob.page@datawatch-europe.com](mailto:rob.page@datawatch-europe.com)

More dates may be added if demand continues to exceed capacity. Everyone interested in attending should register their interest so that consideration can be given to arranging an additional date and / or location.

## **About Datawatch Corporation**

Datawatch Corporation provides solutions that build on a Service Oriented Architecture (SOA) framework and Monarch report-mining technologies. These enable organisations to access, enhance, analyse and deliver information from wherever it resides, inside or outside the enterprise, to solve business problems.

Datawatch products are used in more than 20,000 companies, institutions and government agencies worldwide.

Datawatch Monarch solutions are distributed in Europe by Datawatch Europe Ltd, The Software Centre, East Way, Lee Mill, Ivybridge, PL21 9GE, Tel. 01752 893100 [www.datawatch-europe.com](http://www.datawatch-europe.com) Email: [sales@datawatch-europe.com](mailto:sales@datawatch-europe.com)
